
Cabinet Installation Preparation

Coordinate with your installer and other trades. This is a preparation checklist, not cabinet installation instructions.

Customer / project: _____

Confirm materials and responsibilities

- ☐ Give the installer the approved layout and cabinet list.
- ☐ Inspect cabinets and report issues within supplier deadlines.
- ☐ Check fillers, panels, toe kick, molding, and hardware.
- ☐ Assign assembly and installation work.
- ☐ Document labor scope, exclusions, and change approval.

Prepare the room and schedule

- ☐ Coordinate demolition, wall work, utilities, and inspections.
- ☐ Agree on flooring sequence with installer and flooring provider.
- ☐ Provide appliance and sink specifications.
- ☐ Clear access and prepare protected cabinet storage.
- ☐ Empty the kitchen and arrange a temporary meal area.
- ☐ Coordinate countertop measurement and remaining trades.

Questions / follow-up
